>> **Co-op Certification**
Dalhousie University | 09/2016 - 04/2019

/ AUSTRALIA 417 VISA 08/2019 - 04/2020

>> Construction Worker
Amrick Pty Ltd | January 2020 - March 2020

>> Bartender
Melbourne Public | September 2019 -
March 2020

/ COMPETENCIES

■■■■■ Python
■■■■■ HTML/CSS
■■■■■ Javascript
■■■■■ React
■■■■■ Java
■■■■■ SQL
■■■■■ Git
■■■■■ UNIX
■■■■■ Software Design Patterns
■■■■■ Agile Development Methodology

/ WORK EXPERIENCE

>> Junior Software Engineer

Intertalk | April 2018 - September 2018

Wrote efficient and reliable C to run on embedded systems used by first responders.

- Developed a polyphase interpolation filter, saving 10% CPU usage on sampling operations, extending the life of both the product software and hardware.
- Extended software functionality by adding DTMF Knox and other digital signal processing capabilities.

>> Junior Software Engineer

Lockheed Martin | September 2017 - December 2017

Expanded CMS 330 3D display capabilities by writing reusable and well documented Java.

- Increased accuracy of 3D map display by rewriting legacy mapping libraries to better reflect a 3D map projection.
- Enhanced functionality of the CMS 330 map display by creating visualizations for vehicle, ordinance, and object trajectory tracking.
- Wrote python scripts to identify, replace and update legacy code.

>> Software Tester

Math Resources | January 2017 - April 2017

Tested several educational web apps while writing test-case and usage documentation.

- Performed black box testing on several web apps to aid developers and perform project management in JIRA.
- Worked with developers to set deadlines and release goals.
- Maintained, updated and edited documentation for stakeholders and clients.

>> IT Support

Inkline Media | May 2016 - September 2016

Helped design and implement custom websites and provide IT support to clients on a range of issues.

- Collaborated on the design and implementation of websites using a combination of custom elements and WordPress plugins.
- Operated as a IT specialist to provide clients with user support for a range of issues from content management to deploying custom email campaigns.
